Board Policies

(As of March 20, 2025)

April 2022

The public power promise holds representative governance as one of its foundational principles. This link to our customer-owners – through our elected board of directors – is key to Omaha Public Power District’s operations.

OPPD is leaning forward into the future and all it offers for our customers. In pursuit of OPPD’s vision and mission, our governance structure will inform all of the decisions we make that will impact our operations and service for decades to come.

The utility industry continues to undergo swift transformation, impacted by changing technology, more frequent extreme weather events and evolving customer expectations, among other factors. OPPD remains fully committed to effective governance practices that will be especially critical during this time.

Since 2015, OPPD’s Corporate Governance Initiative has provided the board and OPPD executive leadership an opportunity to discuss the wishes of our customer-owners, and to confirm strategic performance targets, board governance principles, accountabilities and levels of empowerment through which the organization can achieve these desired results.

OPPD’s board policies consist of three categories, all of which are designed to help optimize decision-making across the utility as well as clarity around the following:

Category	Focus
Governance Process	Principles for how the Board will govern itself.
Board-Staff Linkage	Delegations from the Board to the CEO to carry out the work of OPPD.
Strategic Direction	Performance for which the Board will hold OPPD accountable on behalf of its customer-owners.

This system of policy governance has delivered positive results in the years since it was implemented, including the following:

- A smooth transition and onboarding of newly elected board members
- Trust and cohesion with clarity for management as they carry out the work related to strategic direction policies and initiatives
- Clarity of strategic direction to guide resource prioritization and decisions to serve our more than 350,000 customer-owners, especially in areas of reliability, rate management and innovation for the future.

As part of OPPD’s commitment to transparency, board policies are available to review [online](#), and engaging with the public will remain a priority around any changes to such policies. This oversight provides an opportunity for the board and executive leadership to clarify policy, revise it when necessary and ultimately deliver desired results for OPPD’s customer-owners.

- Board members should conduct themselves with civility and respect at all times with one another, with staff, and with members of the public.
- Board members are expected to act in the best interest of OPPD and the customer-owners. Board members should discourage former Board members from attempting to influence the Board, individual Board members or staff, on behalf of any third party (other than a governmental entity) from whom the former Board member is receiving compensation, on any matter that the former Board member substantially participated in during his or her tenure with the Board. - Standing committees shall be reviewed at least annually by the Board to determine whether they should continue.

Nebraska Law (Section 70–624.02, as amended) provides that “members of the Board of Directors shall be paid their actual expenses while engaged in the business of the District under the authority of the Board of Directors....” Accordingly, Board members shall be reimbursed for expenses incurred which are appropriate in the performance of their Board-related duties and consistent with their statutory obligations.

The purpose of this policy is to establish procedures relative to expenses incurred by members of the Board of Directors in the performance of their duties; to define authorizations required to incur such expenses; to ensure uniform and fair payment of expenses; and to establish procedures for securing reimbursement.

It is expected that all Board member activities related to any expenses submitted for reimbursement will comply with the “Omaha Public Power District Board of Directors Code of Ethics and Business Conduct.”

REIMBURSABLE EXPENSES

Expenses eligible for reimbursement under this policy must be actual, reasonable and customary expenses incurred while conducting Board-related duties.

- Board-related duties may include, but are not limited to, Board meetings (any official Board, Committee or related meeting), OPPD business (activities that are directly related to the necessary and required functions of the District), industry-related conferences, and training/learning events.
- Expenses may include related mileage expense, meals (including tips), lodging, transportation, business meeting/events, and other miscellaneous expenses. Expenditures for alcohol and related taxes/gratuities as well as expenses for family members or personal guests are not reimbursable.

Expenses must be documented accurately and completely, and have appropriate authorization.

TRAVEL AND TRAINING AUTHORIZATION AND APPROVAL

Each Director is authorized to travel at OPPD expense on single-day trips within the District's service area when in his/her judgment such travel is required in connection with OPPD business.

Directors shall coordinate all other travel arrangements through the office of the Corporate Secretary. Thirty days in advance, for all business trips which require overnight accommodations and for all single-day trips by commercial transportation to points outside of the District's service area, Directors shall complete a Trip Authorization (TA) form, including the estimated costs, the percentage to be paid by OPPD, and whether the expenditure will span multiple years.

- If OPPD representation is requested with shorter than thirty-day notice and travel is required, the Corporate Secretary shall notify Board members of the pending trip.
- Written travel and training justifications shall be distributed to all Board members in the Board packet for purposes of transparency and oversight.

The Corporate Secretary shall review the TA, and confirm consistency of proposed expenses with Board and OPPD travel policy. If the Corporate Secretary questions the appropriateness of any expense, clarification will first be sought from the respective Director. Any disputes resulting from the review shall be forwarded from the Corporate Secretary to the Risk Committee for review and a final determination.

Each Director is authorized up to \$3,500 during a calendar year to attend training and learning events within the continental United States when in his/her judgment such training and learning events will benefit the District. Budgeted travel and training funds shall expire at the end of each calendar year with no rollover option. If a Board member exceeds the annual authorized expenditure amount, then he/she shall reimburse OPPD within 30 days the difference between the authorized amount and actual expenditures.

Any travel outside the continental United States or any out-of-state travel to attend more than the allowed budget for training and learning will require additional approval. To obtain approval, the Director shall: (1) notify the Corporate Secretary of the travel location, purpose of the trip, date of travel, and an estimated cost; (2) the Corporate Secretary will provide the request to the Audit Subcommittee for approval; and (3) once approved by the Risk Committee, the Corporate Secretary will place an item related to this travel on the next Board meeting consent agenda for full Board approval. If the request is denied, the Director may still attend the event at the Director's expense.

EXPENSE REIMBURSEMENT

Sufficient documentation of expenses is necessary for reimbursement of applicable expenses. All requests for expense reimbursement from Directors shall:

- Be prepared on an OPPD Expense Report form and be submitted for payment within 30 days upon completion of a trip, and no later than sixty days from when any expense was incurred.
- Include an itemization of expenses, provide a brief explanation of the purpose of the expense, and include original receipts for all expenditures, with the exception of mileage, single-trip public transportation and tips on services (e.g. hotel housekeeping, door attendants or bellhops).

- Meal receipts must be itemized and include the name(s) of the person(s) for whom a meal was purchased as well as their respective company when non-OPPD employees are included. Tips on service may not exceed 20% of the total bill, including tax. If a receipt cannot be obtained or has been lost, a statement to that effect shall be made on the expense report form and the reason given.
- For mileage reimbursement, the business purpose, date, origin, destination and number of miles driven must be included in the supporting documentation. Business use of personal vehicles is reimbursed at the IRS standard mileage rate.
- Include a statement, signed by the Director submitting the request for reimbursement, that the expenses are actual expenses incurred while on District business and that the expenses conform to the Board Expense Reimbursement policy.

Directors shall submit their expense reports to the Corporate Secretary for review and determination that: (1) the claims for reimbursement are in accordance with this policy; and (2) the necessary budgetary funds are available for disbursement.

Any disputes resulting from the review shall be forwarded from the Corporate Secretary to the Risk Committee for review and a final determination.

REVIEW OF EXPENDITURES

All expense statements will be reported to the Board of Directors for review at its next Risk Committee meeting.

Managing its interactions with the environment is essential to OPPD’s ability to serve customers, create value for stakeholders, and contribute to the well-being of the communities it serves and its employees. The OPPD Board of Directors recognizes the scientific consensus that climate change is occurring and that greenhouse gas emissions, including carbon dioxide, from human activity contribute to climate change impacts. The board also understands that climate change is a significant issue that requires pragmatic solutions recognizing technology advancement, energy supply sufficiency, and climate resilience as co-equally important to carbon emissions reductions.

Therefore, OPPD shall:

- Strive to improve the efficient use of raw materials, energy, and water to reduce emissions, discharges and wastes in our operations and provision of our services.
- By year end 2027, achieve an approximate 3,500,000 ton annual reduction in CO₂e* emissions at the North Omaha Station site relative to OPPD’s 2013 benchmark of 3,960,179 tons at the station.
- Strive to achieve net zero carbon equivalent (CO₂e) emissions by 2050 relative to OPPD’s 2013 benchmark with the following interim targets:
 - 2027 (41-51% net reduction)
 - future interim metrics to be informed by and determined following the completion of the 2026 Integrated Resource Plan
- Harden our critical infrastructure to be resilient to the effects of climate change.
- Strive for an “early majority” posture when considering technology advancements when system planning.
- Collect data on our environmental performance and communicate progress periodically (at least annually) to the board and community.
- Recognize the importance of the principle of Environmental Justice** in District decision making and strive toward the just treatment and meaningful involvement of all people, regardless of income, race, color, national origin, Tribal affiliation, or disability in District

decisions that may impact human health and the environment

- Conduct its business in a manner that meets all environmental regulatory standards, and go beyond compliance where practical.

*CO₂e includes CO₂, CH₄, N₂O, and SF₆ greenhouse gas emissions

**The EPA defines Environmental Justice as the fair treatment and meaningful involvement of all people, regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Integrated System Planning is the ecosystem of planning processes used to efficiently integrate the transmission system, supply and demand side resources, and the increasingly complex distribution system. Through Integrated System Planning efforts, OPPD will continually plan for, adapt to, and enable both the needs of our customers and the rapidly transforming electric industry. Successful planning will ensure both a reliable electric system and the resiliency of the system and its components to prepare for, withstand, respond to, adapt to and quickly recover from a non-routine event.

OPPD shall:

- Ensure that year-round supply-side and demand-side resource capacity exceeds forecasted load in compliance with resource adequacy and planning reserve margin requirements of OPPD’s regional balancing authority.
- Ensure compliance with applicable planning related North American Electric Reliability Corporation Reliability Standards including consideration of Essential Reliability Services.
- Ensure planning accounts for potential extreme weather events, changes to demand-side and supply-side regional resources and extended periods of low energy production by variable energy resources.
- Compute resource adequacy metrics that quantify the ability of OPPD’s resources to meet its forecasted electric demand:
 - Measure the frequency with which a system’s demand is expected to be met by system capacity over a period of time.
 - Measure the percentage of total energy that a system is projected to be able to serve over a period of time.
