INDUSTRIAL: 18.3% BELOW

RETAIL: 30.2% BELOW

*According to preliminary December 2025 figures from the Energy Information Administration.

COMPANY HIGHLIGHTS

- Operating since 1946
- Publicly owned
- Governed by elected board
- Headquartered in Omaha, Nebraska
- Serves a population of 906,000 in 13 counties
- 5,000-square-mile service territory
- 12th-largest public power utility in U.S. per number of customers

PUBLIC POWER WORKS FOR YOU

Nebraska is the only state in the U.S. whose residents get their electricity almost entirely from public power utilities. For more than 100 years, public power has provided benefits like:

- **Local control** Nebraska utilities are overseen by publicly elected boards, appointed utility boards, rural cooperatives and city councils.
- **Reliability** Public power utilities are committed to maintaining reliable service.
- **Affordability** Public power rates are based on the cost to provide service, not the financial interests of stockholders. Low-cost power gives the OPPD service territory a competitive advantage when attracting economic development to our communities.
