

Power Quality Distribution Line Project

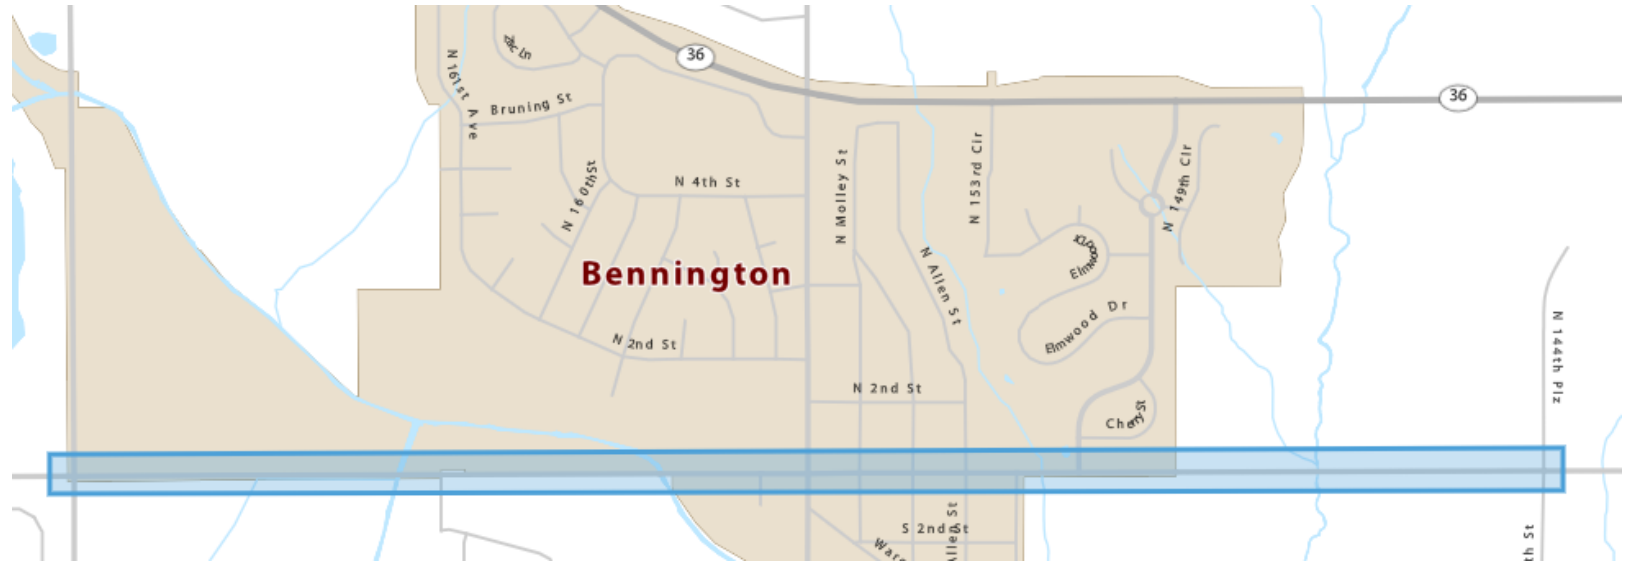

N. 144th Plaza to N 168th St on Bennington Rd

Project Description:

OPPD is committed to delivering affordable and reliable power to our customer owners so over the next several months OPPD and its contractors will be surveying, staking, replacing and in some cases installing underground and overhead distribution lines on the south side of the road.

This necessary infrastructure is part of the new Bennington sub-station expansion project, and will help support load growth in the Bennington area!

Safety is OPPD's priority and we ask that property owners to do everything they can to keep construction areas safe and to not enter an active work site. We apologize for any inconvenience due to lane shifts and possible traffic delays.

Project Start Date:
May 2024

Project work is expected to last through Fall 2024, barring weather or other unavoidable delays.

Crews and vehicles may be marked with their company logos.
