Program ID#: NE0054739
CQA Final Closure Report – NDEE Approval & Final Closure/Beginning Post-Closure Care

Dear Ms. Seymour:

The Nebraska Department of Environment and Energy (NDEE) has received and reviewed the above referenced facility's Construction Quality Assurance (CQA) Report for Coal Combustion Residual Monofill Closure submitted on September 24, 2024. The Department approved the previously referenced CQA Report on November 8, 2024, with the condition that a site visit of the closure construction be conducted as soon as possible. The construction inspection site visit was conducted on November 20, 2024. Note during the site visit, there was some observed erosion that had just recently occurred due to some heavy rainfall events. Due to the recent rainfall events and the winter season approaching the erosion repair to the final cover would not be practical until the following spring. Repair of the observed erosion is planned for the Spring 2025. Please provide the NDEE notification when this repair work is scheduled to begin. The NDEE anticipates conducting a follow-up site visit after the repair work has been completed.

Please remember to submit to the NDEE a copy of the deed notice that is required by the approved Closure Plan.

Based on the approval of the CQA Report and final closure inspection the NDEE approves the final closure of the OPPD North Omaha Station Fossil Fuel Combustion Ash Monofill. As of the date of the above conditional approval the 30-year post-closure period for the OPPD North Omaha Station Monofill began. Post-closure monitoring and maintenance must be implemented in accordance with the approved post-closure plan in your permit application during the 30-year post-closure period. Please keep records of the annual post-closure inspections and any repairs or maintenance that is completed during the post-closure period. If erosion occurs on the final cover after a major storm event, the repair of the final cover and reseeded should be completed as soon as possible.

A letter addressing the financial assurance requirements for the OPPD North Omaha Station Monofill will be sent out separately.

If you have any questions, please contact Michael Behrens at (402) 471-4250.

Sincerely,

Dan D. LeMaistre, P.E.
Waste Permit Section Supervisor

RE: OPPD North Omaha Station Ash Disposal Area Landfill Deed Notice
NDEE IIS#: 59763, Program ID#: NE0054739

Dear Mr. LeMaistre,

The Omaha Public Power District is submitting the attached Deed Notices for the North Omaha Station Ash Disposal Area as part of the final closure of the landfill. The Deed Notices have been filed with the Douglas County Register of Deeds.

Yours truly,

OMAHA PUBLIC POWER DISTRICT
