## ADDITIONAL UPDATES

In late December 2025, OPPD has received all the Southwest Power Pool (SPP) generation interconnection agreements from FERC as outlined in Board Resolution 6518.

In alignment with Board Resolution 6744 regarding North Omaha Station operations, management will initiate an SPP transmission tariff study within 30 days of receiving all required and approved SPP interconnection agreements.

This study will inform the transmission investments required to enable the retirement and refueling of North Omaha Station. SPP has up to a year to finish the study and management will provide updates as the process progresses.
